CONTENTS

Tectonophysics Volume 218

Special Issue: New Horizons in Strong Motion: Seismic Studies and Engineering Practice (edited by F. Lund)

Preface vii
Earthquake rate analysis
J.G. Anderson, M. Ellis and C. DePolo (Reno, NV, USA) 1
Seismic design of industrial facilities
E. Arze (Santiago, Chile) 23
Strong motion seismology in Mexico
S.K. Singh and M. Ordaz (Coyoacán, Mexico) 43
Rupture mechanism and interface separation in foam rubber models of earthquakes: a possible solution to the heat flow paradox and the paradox of large overthrusts
J.N. Brune (Reno, NV, USA), S. Brown (Albuquerque, NM, USA) and P.A. Johnson (Reno, NV, USA) 59
Revision of attenuation formula considering the effect of fault size to evaluate strong motion spectra in near field
S. Ohno, T. Ohta, T. Ikeura and M. Takemura (Tokyo, Japan) 69
Advancement in strong motion analysis by the use of evolutionary power spectra
R.J. Scherer (Karlsruhe, Germany) 83
Local site effects on weak and strong ground motion
K. Aki (Los Angeles, CA, USA) 93
Topographic effects for incident P, SV and Rayleigh waves
F.J. Sánchez-Sesma (México D.F., Mexico) and M. Campillo (Grenoble, France) 113
Ground motion in Mexico City during the April 25, 1989, Guerrero earthquake
F.J. Sánchez-Sesma, L.E. Pérez-Rocha and E. Reinoso (México D.F., Mexico) 127
Future ground motions in Mexico City
M. Ordaz, E. Rosenblueth and E. Reinoso (México D.F., Mexico) 141
The rupture process of the 1980 Irpinia, Italy, earthquake from the inversion of strong motion waveforms
M. Cocco and F. Pacor (Rome, Italy) 157
Source effects on strong-motion records and resolving power of strong-motion arrays for source inversion
M. Iida (Tokyo, Japan) 179
Engineering applications of strong ground motion simulation
P. Somerville (Pasadena, CA, USA) 195
Analysis of the January 26th, 1985, Mendoza (Argentina) earthquake effects and of their possible correlation with the recorded accelerograms and soil conditions
J.L. Zamarbide and J.C. Castano (San Juan, Argentina) 221
Study of the effects of tsunami on the coastal cities of the region of Tarapacá, north Chile
J. Monge and J. Mendoza (Santiago, Chile) 237
Generation of inhomogeneous P waves in a layered medium
J.L. Mateos, J. Flores, O. Novaro and J.M. Alvarez-Tostado (México D.F., Mexico) and T.H. Seligman (Cuernavaca Mor., Mexico) 247
Relationship of seismic hazard studies to seismic codes in the United States
N. Donovan (San Francisco, CA, USA) 257
A study of site amplification effects on ground motions in Santiago, Chile
E. Cruz and R. Riddell (Santiago, Chile) and S. Midorikawa (Yokohama, Japan) 273
The seismic hazard at Tehri dam
J.N. Brune (Reno, NV, USA) 281
Semi-empirical estimation of peak ground acceleration from large earthquakes
S. Midorikawa (Yokohama, Japan) 287

Research papers
The thermal blanketing effect of sediments on the rate and amount of subsidence in sedimentary basins formed by extension
Y.K. Zhang (Beijing, People's Republic of China) 297

Vertical crustal movement in the Boso peninsula, South Kanto, Japan, as deduced from the adjustment of a geodetic network with signals
Y. Fujii (Mito, Japan) 309
Tectonometamorphic evolution of Ghana, Togo and Benin in the light of the Pan-African / Brasiliano orogeny
C. Castaing (Orleans, France), C. Triboulet (Paris, France), J.L. Feybesse and P. Chèvremont (Orleans, France) 323
Seismicity of the Adriatic microplate
R. Console, R. Di Giovambattista and P. Favali (Rome, Italy), B.W. Presgrave (Denver, CO, USA) and G. Smriglio (Rome, Italy) 343
Geophysical evidence for the subsurface distribution and mode of emplacement of ophiolites in the Eastern Rhodope region, N. Greece
F. Maltezou and M. Loucoyannakis (Athens, Greece) 355

Letter section
The sliding-scale Mohr diagram
C.W. Passchier (Utrecht, The Netherlands) 367
Microearthquakes at the main boundary thrust in Eastern Himalaya and the present-day tectonic model
J.R. Kayal, R. De and P. Chakraborty (Calcutta, India) 375
Ocean–continent boundary in the Iberia Abyssal Plain from multichannel seismic data
M.-O. Beslier, M. Ask and G. Boillot (Villefranche-sur-Mer, France) 383
